

NOTIFICATION: DSB 2019 Consultation Milestones Announced – includes User Fee Survey and set up of a Group-wide User Agreement Forum

Audience: All DSB users

Notification details:

The Derivatives Service Bureau today announced that it is conducting a User Survey as well as establishing a group-wide Agreement Forum as part of 2019 industry consultation milestones. Committed to the use of international standards to make the OTC derivatives market a more stable and efficient environment, both initiatives have been set up to ensure continued extensive industry collaboration and representation with the DSB, including impact on user agreements, services and fee models.

As part of the [DSB milestones announced today](#), the DSB is undertaking a [User Survey](#) on the existing fee model timeline and annual review cycle. **The User Survey is open until 5pm UTC on Friday 15th March 2019** and has been designed to allow DSB users a format for early feedback that will feed into the annual consultation process being launched in the coming months.

The DSB is committed to continue working with industry to determine a timeline for review of fees, which will enable industry to plan ahead and achieve the best value for money. Reviewing contracts for group entities currently with multiple licences, while maintaining the DSB values of representation on a fair and equitable basis within the OTC ISIN, CFI and FISN user community is a priority for the DSB. To encourage industry discussion and feedback on this topic, the DSB will be establishing a group-wide Agreement Forum to discuss possible ways to enhance the User Fee model.

Action required:

Please complete the [User Survey](#) and click the 'Done' button at the end of the form.
